Discussion about an Urban Camping Ordinance [Bender]

Mayor Pro Tem Warner said that Code Enforcement is having issues with people camping on vacant property and there is no legal mechanism to have them removed unless the property has a no trespassing sign posted.

City Attorney Ross explained that the draft ordinance is modeled after Gwinnett County and other surrounding jurisdictions. It allows the Officers to issue a warning first and find ways to get the people assistance.

Discussion About Vehicle Noise in the City Limits [Carter]

Council Member Carter asked about enforcement of loud vehicles in the City. Assistant Chief Matson advised that the way the law is currently written is a problem because the violation must occur in front of the Officer, which rarely happens. He reviewed the statistics for noise violation citations written in 2023.

RE: Resolution to Adopt the Snellville 2045 Comprehensive Plan

STATUS: 2nd Reading and Public Hearing

This is the five (5) year update to the Snellville 2040 Comprehensive Plan, adopted February 2019 and a requirement to maintain qualified local government status and eligibility for state funding.

The 2045 Comprehensive Plan process began in July 2023 and involved community engagement, research on existing conditions, strategy development, and coordination with elected officials, Community Task Force members, City departments and partner organizations. Draft elements were posted to the Snellville 2045 project website (<https://www.snellville2045.org/>) for review throughout the process and feedback was incorporated into the final draft.

The draft plan was transmitted to the Atlanta Regional Commission (ARC) and Georgia Department of Community Affairs (DCA) for regional review and comments. Comments have been addressed with the final draft plan having been approved by the ARC on February 13, 2024.

The plan does not make any zoning map changes to the Official Zoning Map for the City of Snellville; however, the plan does include 11 updates to the February 2019 adopted 2040 Future Land Use Map as shown in Exhibit "A".

Subject: City of Snellville Comp Plan Update: Approved w/Advisory

Andrew:

Our staff has reviewed the comprehensive plan update for the City of Snellville and determined that it adequately addresses the Minimum Standards for Local Comprehensive Planning. We also have advisory comments for the plan preparer below. These comments need not be shared with the community, but they should be used to improve plans prepared for other communities in the future. If you have any questions about our comments, please contact us at 404-679-5279. As soon as your office provides written notice that the plan has been adopted and provides DCA with a digital copy of the final adopted version of this document, we will award Qualified Local Government status to the local government.

Advisory Comments for the Plan Preparer

The comments below are offered to help the plan preparer improve the quality of plans prepared for other communities in the future. These should not be interpreted as suggesting a need to revise this specific draft Plan Update. DCA is vitally interested in ensuring that all Georgia communities have high-quality plans. We're happy to discuss these comments if desired.

Community Participation

- ¶ In future submittals please provide more information about the public involvement process used to develop the plan, including:
- composition of the plan steering committee (Titles of those that participated)
 1. This description can be included as an appendix to the plan document.

Report of Accomplishments

- ¶ The Report of Accomplishments lacks clear categorization of the following projects as either "completed", "underway", "postponed", or "not accomplished/cancelled". It is important to note that projects identified as either "postponed" or "not accomplished" require a detailed explanation for the delay or discontinuation. Additionally, it is crucial to understand that projects cannot be simultaneously labeled as completed and ongoing; each project must be distinctly classified into one specific category.
- Construct planned mixed use development in the Towne Center core
 - Pursue targeted redevelopment of vacant/underused parcels in the Towne Center through marketing efforts, property acquisition, and assembly

Agenda Item Summary

Date: February 26, 2024

Prepared by: Melisa Arnold, City Clerk

Agenda item:

Consideration and Action on Approval of the Revised Municipal Court Fines

Background:

Municipal Courts fines have remained steady since 2009. However due to an increase in charges by Courtware we are looking at an increase in certain fines to help offset the additional expense. The Court did a fine comparison using surrounding jurisdictions and found that we were below average on most of our fines. We are not recommending an increase to all fines and have attached the current fine schedule comparison with the new recommended fines in red.

Recommendation:

Approval of the revised Municipal Court Fine Schedule

Action requested:

Motion and affirmative vote to approve the revised Fine schedule.
