

Rich Brick Look. One-Step Installation.

QuikBrik[®]
by Oldcastle[®]

The Intelligent Choice for Exterior Masonry

What makes Quik-Brik® so unique?

One look and you'll immediately notice the difference. While traditional brick veneers require structural reinforcement, Quik-Brik can stand alone. Because Quik-Brik is concrete masonry, it's durable enough to stand the test of time. Quik-Brik offers efficient, **one-step installation**, along with the **rich look of brick** in a variety of colors and shades. Physical performance, usability, and cost-effectiveness have earned Quik-Brik its unrivaled reputation for lasting value among architects and contractors alike. Whether your project is large or small in scale, you'll find Quik-Brik is the intelligent choice for exterior masonry.

Take a closer look.
You'll discover Quik-Brik[®]
is everywhere.

The rich look of brick

It's what we've built our reputation on. Quik-Brik's rich, distinctive brick appearance has earned its place as the most in-demand single-wythe masonry unit in the business. Combining **clean, classic simplicity** of design with a broad range of color options, Quik-Brik gives architects and builders a level of design versatility that's unsurpassed.

Municipal / Governmental

Oldcastle designed Quik-Brik to meet the specific performance and code requirements government and institutional interests demand. Its consistent quality has made Quik-Brik the preferred choice for hospitals, schools, and fire stations, as well as countless other high-profile public spaces.

Retail / Commercial

Quik-Brik is just one of the products we've created to support the unique needs of commercial interests across North America. It's one reason why we enjoy close relationships with leading retail chains, hospitality companies, developers, and other entities with national building supply requirements.

Institutional

It's in university dormitories, professional football stadiums, and nationally renowned convention centers. From coast to coast, Quik-Brik has been the first choice for exterior masonry. Architects and designers know that when it comes to aesthetics, ease of installation and durability, nothing comes close to Quik-Brik.

bring out the best in
your design.

The Colors of Quik-Brik®

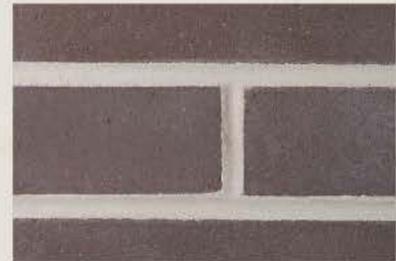

Quik-Brik understands just how important color is to your building's appearance. With our extensive color palette, you're able to find the perfect color and shade to bring out the best in your design. Select with the confidence of knowing that regardless of the choice, you'll never have to worry about weathering or fading. Quik-Brik's colors are permanent and non-fading integral factors in the equation that add up to our unsurpassed durability. We understand that matching region-to-region building color is of paramount importance. Quik-Brik's national distribution and support network ensures your look stays consistent from coast-to-coast.

The look of traditional masonry.
The ease of modern technology.
There's only one Quik-Brik®.

No hassles, no delays.

A masonry product that can deliver results now, and 15, 25, and 40 years down the road.

When national retailers and their construction partners require a quality single-wythe concrete masonry unit with the look of genuine brick, they mean business. Staying on tight deadlines, maintaining consistent appearance from location to location, keeping multiple projects moving forward to completion—it requires a product that gets the job done.

This product is chosen time and time again by architects and builders not only for its first-rate appearance, but its solid record of dependability. They know the brand they can trust and the company that stands behind it: Quik-Brik by Oldcastle.

Only the True Quik Brik can provide the rich look of brick, in a condensed timeline and maintain the Quality of Traditional Brick.

When opening new locations, national retailers are being faced with strict construction schedules, high quality standards, and tight budgets. When retailers are looking for the authentic look of brick in half the time, Quik Brik delivers.

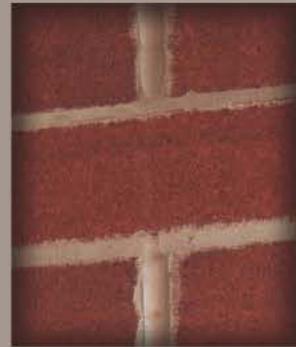

In the past, as well as today, some of the nation's largest retailers choose Quik Brik over traditional brick to meet their ever changing needs. Whether it's the speed of installation using a single-wyth structural unit, needing to be cost effective, or enhanced design and color options, Quik Brik is up for the challenge.

Installation that's quick and easy.

Installing Quik-Brik concrete masonry units is a fast, one-step operation. It's much more efficient than the time-consuming process required to install a typical brick veneer, reducing the time between blueprint and "open for business". The result? Projects get completed on schedule and on budget.

The face of masonry

No matter where you are, chances are we're somewhere close by. In fact, you've probably seen us many times before in the **places you shop, work, play, learn, and live**. We manufacture the brands and products used in the interiors and exteriors of civil, commercial, and residential construction projects across the nation. We leave our mark with satisfied customers and clients who have chosen **North America's largest manufacturer of building products** to simplify the process of making buildings happen. We're Oldcastle Architectural. We are the face of masonry.

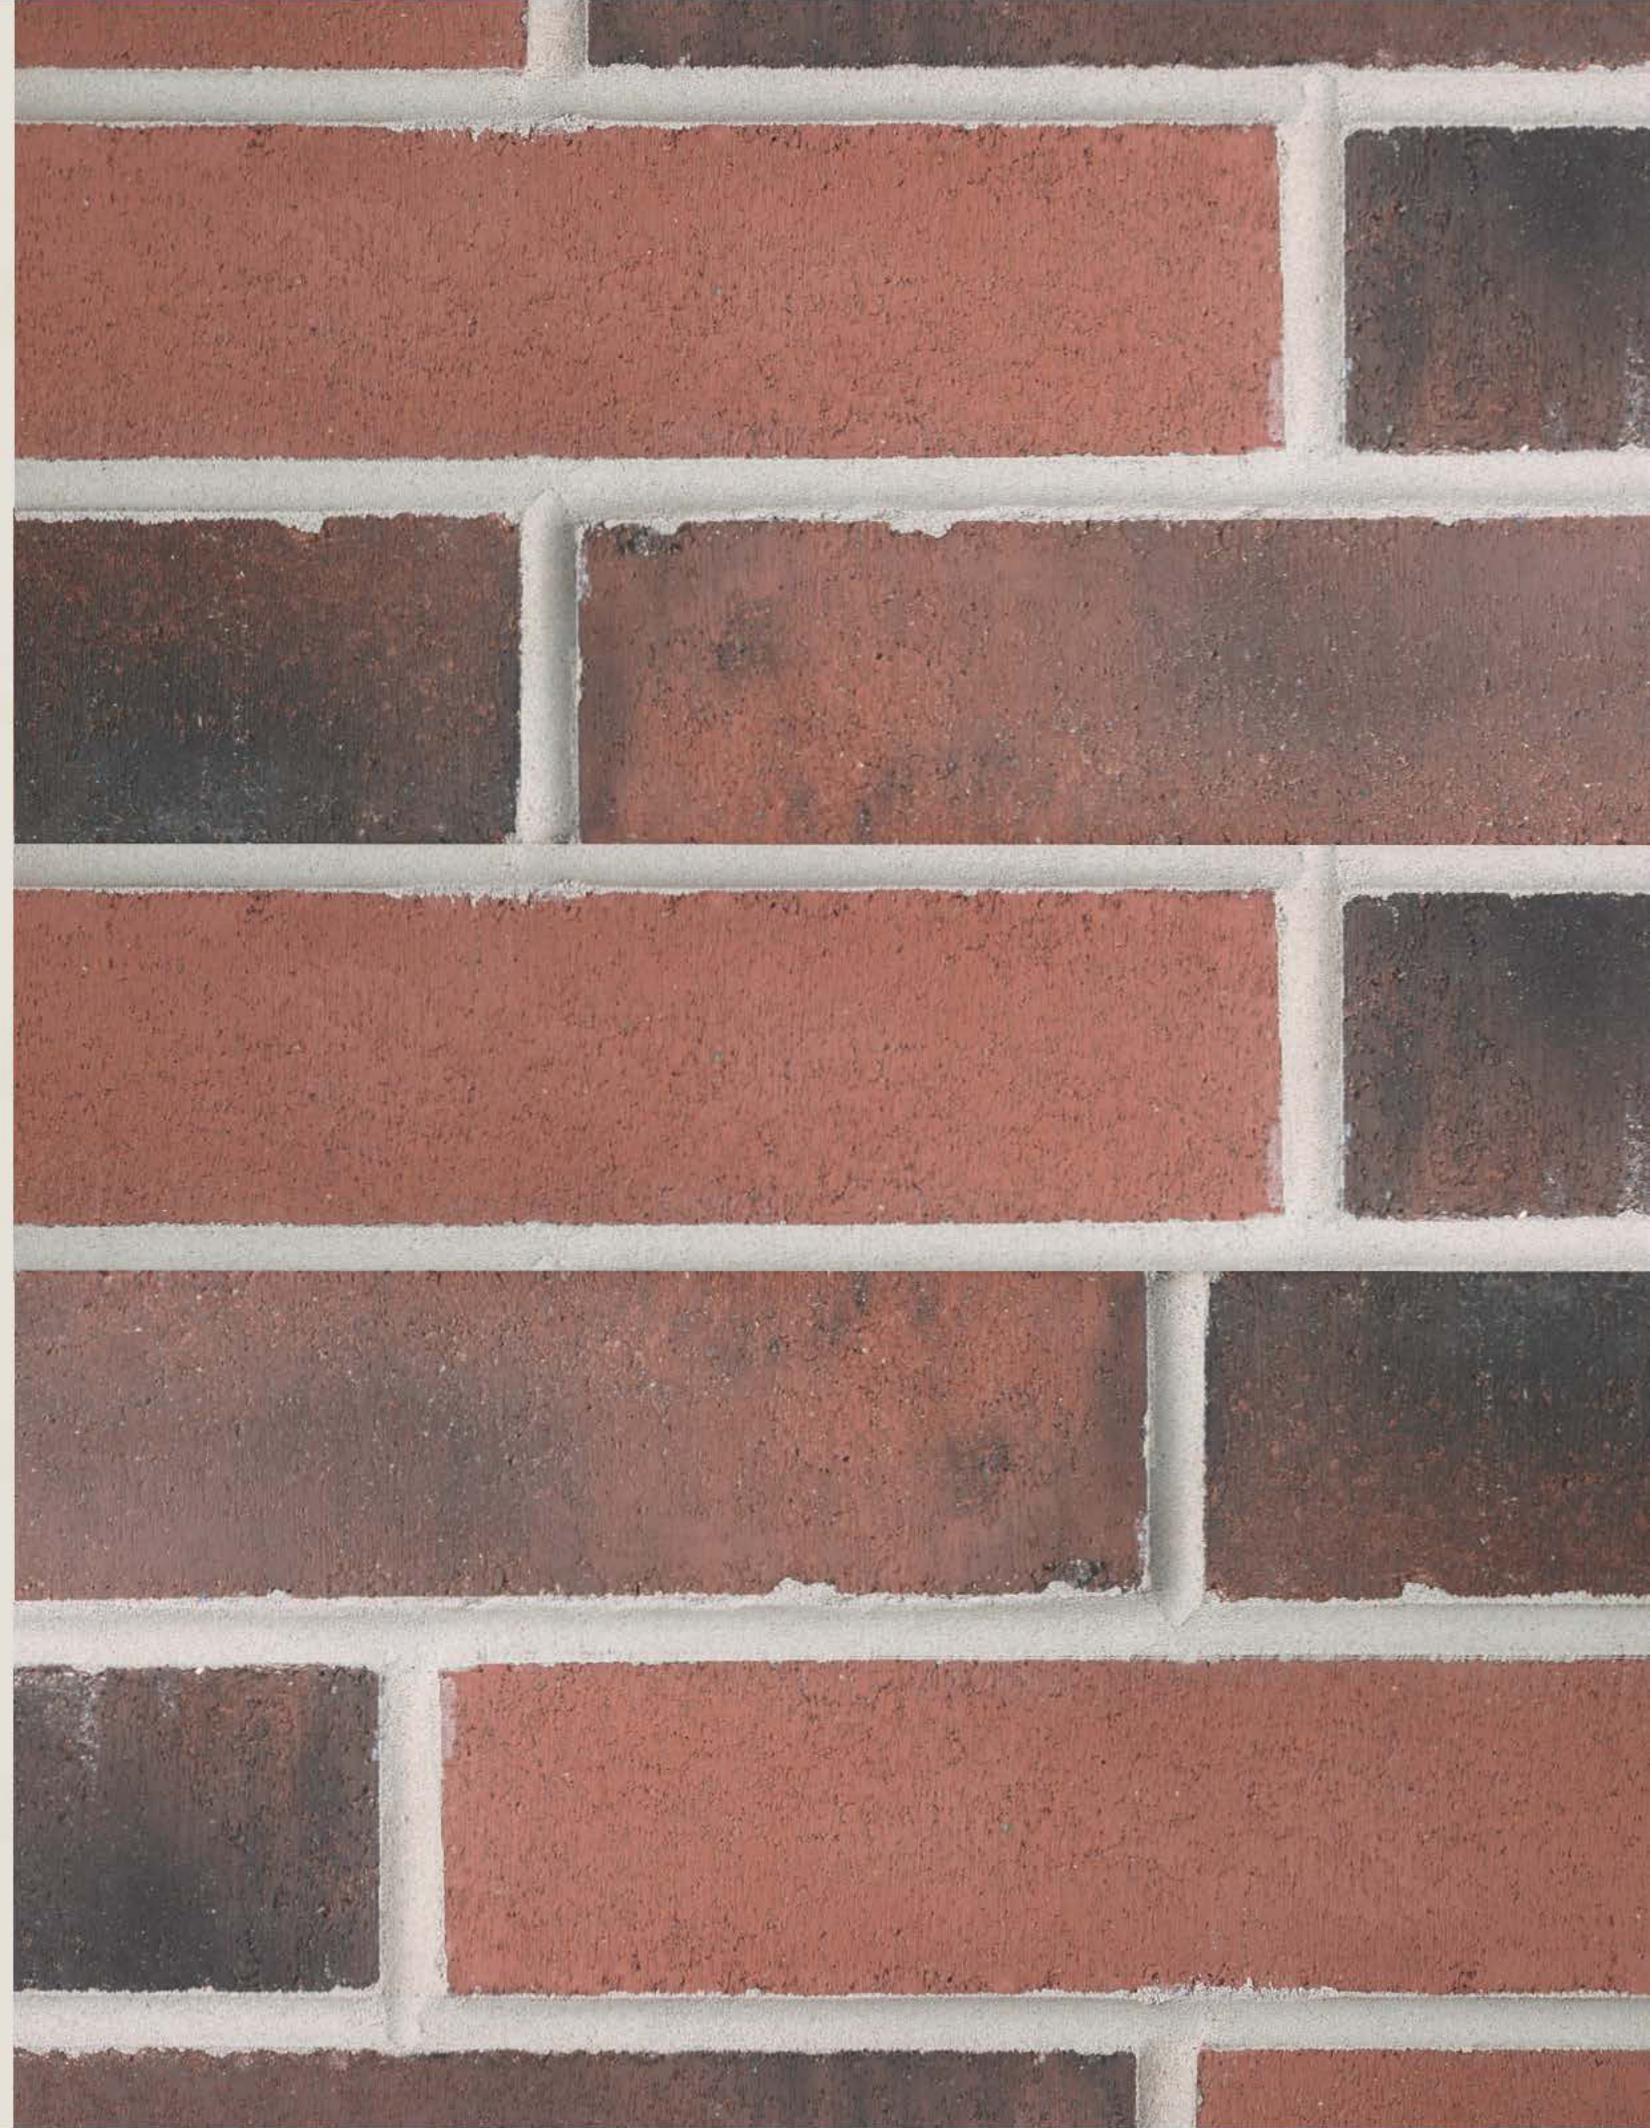

Bottom line:

The best single-wythe masonry unit in the business. Nationwide service you can depend on.

With Quik-Brik, architects and builders have access to a national network that dramatically reduces the time required for orders to reach the project site, plus assurance that the brick colors needed are always available and ready to deliver. Oldcastle's unrivalled national service capability means customers will have knowledgeable **Quik-Brik representatives close by when assistance is required**. The bottom line? - our customers get the unmatched structural performance of concrete masonry and the rich look of brick-backed by the nationwide selection, availability, delivery and service they can only find with America's largest building products manufacturer. Simply put, Quik-Brik delivers the value and quality to make projects a success.
