Subject: FW: Application

Sir,

We will use this email an amendment to your application. To clarify you would like to remove the roofs of the hot tub cover and dog houses and use temporary shade covers instead of permanent roof tops. This will amend your variance application to only requesting one variance to be allowed one additional roofed accessory structure of the maximum (2) that is currently allowed. We will adjust the staff report accordingly and should have that out today or tomorrow for your review.

Thanks,

Jason Thompson

Director
Department of Planning & Development

Jason,

Can we amend my application for the variance by me agreeing to remove the roof structures on the Dog House and Hot Tub and replace with adjustable shade covers.

Thanks,
Bobby
