SPECIAL USE PERMITS: Special use permit is a subcategory of the uses in the District Regulations and is defined and designed to be used when the following criteria are present:

- a) The special use would be consistent with the needs of the neighborhood or the community as a whole, be compatible with the neighborhood and would not be in conflict with the overall objectives of the comprehensive plan; and
- b) A special use listed under the zoning district is desired for development and a more intensive zoning district which contains that use as a use by right would not be appropriate for the property; or
- c) A special use listed under the relevant subsection is desired for development and no zoning district contains that use as a use by right; or
- d) A unique use not addressed in any zoning district is desired for development and is not likely to be duplicated within the City of Snellville; or
- e) The density of development may be affected by the height of a building.

In order to accommodate these special uses, the special use permit allows the Mayor and Council to approve a special use on a particular lot without changing the general zoning district. Such approval shall be subject to the requirements set forth below and any additional conditions the Mayor and City Council and/or the Planning Commission deems necessary to ensure the compatibility of the special use with the surrounding properties. All

special use permit applications shall be for firm development proposals only. The special use permit shall not be used for securing early zoning for conceptual proposals which may not be undertaken for more than six months from the date the application is submitted. A special use permit application shall be considered only if it is made by the owner of the property or his/her authorized agent.

The minimum requirements for a special use permit are:

1. Any uses permitted under a special use permit shall conform to the requirements of this ordinance and the development and zoning regulations for the use as found in the zoning district.
2. The application, fees and review process for a special use permit shall be the same as for the application and review process for establishing the zoning district under which the special use is found, which is Article XV, Section 15.2 of the Zoning Ordinance. In addition to the information and/or site plans which are required to be submitted for the proposed development, additional information deemed necessary by the Director of Planning and Development in order to evaluate a proposed use and its relationship to the surrounding area shall be submitted. In the review process, particular emphasis shall be given to evaluating the relationship of and the compatibility with the proposed use to its immediate neighborhood.
3. In the approval process for a special use permit application, the Mayor and City Council shall consider the policies and objectives of the comprehensive plan, particularly in relationship to the proposed site and surrounding area, and shall consider the potential adverse impacts on the surrounding area, especially with regard to but not limited to traffic, storm drainage, land values and compatibility of land use activities.
4. If an application is approved and a special use permit is granted, all conditions which may have been attached to the approval are binding on the property. All subsequent development and use of the property shall be in accordance with the approved plan and conditions. All final site plans shall be approved by the Planning and Development Department prior to the issuance of any permits. Once established, the special use shall be in continuous operation. Upon discovery that the operation of the special use has or had ceased for a period of one hundred eighty (180) days or more and the owner of the property has not requested voluntary termination of the special use permit, the Director of Planning and Development shall forward a report to the Mayor and Council through the Planning Commission which may recommend that action be taken to remove the special use permit from the property.
5. Changes to a special use or development of a site for the special use shall be treated as an amendment to the special use permit and shall be subject to the same application and review process as a new application.
6. The special use for which a special use permit is granted shall commence operations or construction within twelve (12) months of the date of approval by the Mayor and Council. If, at the end of this twelve (12) month period, the Director determines that active efforts are not proceeding toward operation or construction, a report may be forwarded to the Mayor and Council through the Planning Commission which may recommend that action be taken to remove the special use permit from the property.
7. The Director of Planning and Development or his designee or an officer of the City of Snellville Police Department shall have the right to periodically examine the

operation of the specific use to determine compliance with the requirements of any conditions. If the Director determines that the requirements and conditions are being violated, a written notice shall be issued to the owner of the property outlining the nature of the violations and giving the owner of the property a maximum of thirty (30) days to come into compliance. This thirty-day maximum shall be amendable in the reasonable discretion of the Director of Planning and Zoning. If after thirty days the violations continue to exist, the Director shall forward a report to the Mayor and Council through the Planning Commission, which may recommend that action be taken to remove the special use permit from the property.

8. Upon approval by the Mayor and Council, a special use permit shall be identified on the official zoning maps.
9. Upon approval by the Mayor and Council of a special use permit, the owner of the property shall be issued a notice from the Director, which states the specific use permitted, the requirements of this section and any conditions attached to the approval.
10. The Planning and development Department shall not issue a certificate of occupancy for the specific use unless all requirements and conditions of the special use permit have been fulfilled by the owner of the property.
