Commercial (Food Service Business Establishment or Restaurant)	No	No	YES	YES	YES
Commercial (Grocery, Convenience Store or Market)	YES	No	YES	No	YES

PLAN REVIEW ACKNOWLEDGEMENT

In accordance with Part 2 of Article 1 of Chapter 2 of Title 8 of the Official Code of Georgia Annotated, and upon receipt and acceptance of the submitted Building Plans, the City of Snellville hereby notifies permit Applicant that the City of Snellville intends to complete the required plan review within 30 business days of receiving the plans. If applicable, a written notice of plan deficiencies will be provided to the permit Applicant and the 30-day period will then be tolled pending resolution of the matter. Upon receipt of any plan revisions which addresses the plan deficiencies, the local building official shall have the remainder of the tolled 30-day period plus an additional five (5) business days to issue the requested permit or to provide a second written notice to the permit Applicant stating which of the previously identified plan features remain in non-compliance with the applicable codes. In the event that the revisions required to address the plan deficiencies or any additional revisions submitted by the permit Applicant require that new governmental approvals be obtained, the permit Applicant shall be required to obtain such approvals before a new plan report can be submitted.

As the contractor, builder, owner or authorized agent, I hereby apply for a permit to erect/alter and use the structure as described herein and/or shown on accompanying plans and specifications. If a plot plan is required, said structure will be located as shown on the plot plan. If the permit is granted, I shall construct same according to the development regulations, ordinances and code of the City of Snellville. Further, I shall be responsible for complying with all subdivision protective covenants (where applicable) and required set backs. I also understand that the structure authorized by the permit shall not be occupied or used until all inspections have been made, all re-inspection fees and fines paid and the Certificate of Occupancy/Completion has been issued by the Department of Planning & Development (and by the Gwinnett County Department of Fire & Emergency Services, when applicable). Applicant must hold a valid Occupational Tax Certificate (AKA "business License") for the type of construction covered by the permit issued. A homeowner is not required to have an Occupational Tax Certificate if building one's own personal home (not more than one home per year). I understand that before any inspections will be made, erosion control measures must be installed and properly maintained daily and licensed subcontractor affidavits must be submitted and accepted. I hereby certify that I am the property owner or the authorized agent of the property owner and that all information contained hereon is true and accurate.

BUILDING INSPECTIONS

- Building Permit Cards must be placed on each lot or construction site visible from the street and attached to a weatherproof structure a minimum of five (5) feet above ground.
- Erosion control measures must be in place and properly maintained before any inspections will be made.
- Inspections require a 24-hour advance notice before any inspections are conducted. The City's Building Inspector will conduct one visit (per day) per inspection request.
- Building setbacks will be verified during the footing inspection. All lot lines must be tightly strung and clearly visible.
- Inspections are required before commencement of the next construction phase and are usually requested in the following sequence:
 1. Site Inspection – Swimming pools only
 2. Footing Inspection – Made after all trenches are excavated, forms erected and the steel (if required) in place. Building setbacks will be verified at this time. All lot lines must be tightly strung and clearly visible.
 3. Swimming Pool Inspection – Basket inspection, building, electrical, HVAC and plumbing.
 4. Monolithic Slabs – Slab MEP inspections shall be signed off first; gravel (if specified) and vapor barrier shall be installed before footing inspection is signed-off.
 5. Basement Foundation Walls – Walls over 8' in height require design by PE with reinforcing and wall thickness noted.
 6. Basement Slabs – Plumbing shall be signed-off first; gravel and vapor barrier shall be installed before slab inspection is signed-off.
 7. Garage/Carport Slab – When fill exceeds 24", it requires design by PE with reinforcing noted. Floor must slope to vehicle entrance.
 8. HVAC Rough Inspection – Boot stackheads in; furnace vents roughed-in; thermostat wire in place; pre-fab fireplaces and decorative appliances set; concealed gas lines installed and pressure tested.
 9. Plumbing Rough Inspection – Waste lines and vent installed; waste line braced and strapped every 5 feet; water test on waste lines; water piping installed; water piping strapped every 5 feet.
 10. Electrical Rough Inspection – electrical panel set in place; all wiring installed and terminated in approved boxes or fittings; service cable installed and meter can set; all splices and taps made up and all wire fastened or stapled according to code.
 11. Framing Inspection – All framing complete; fireblocking and bracing in place; roof complete; pre-fab fireplace must be set, vented through roof and capped; bath fans vented. Insulation to be installed after framing inspection is signed-off.
 12. Firewall Inspection – All commercial and multi-family construction with firewalls and fire-rated assemblies after gypsum board is installed on one side but before mudding and taping has started.
 13. Commercial Final Building Inspection – Made after final electrical, plumbing and HVAC inspections have been signed-off; interior and exterior is complete; landscaping is completed; 100% fire marshal signature; sewer signature; health signature; building to be complete and ready for occupancy, with all holds released.
 14. Residential Final Building Inspection – Made after electrical, plumbing and HVAC inspections have been signed-off; framing inspection has been signed-off; all subcontractor affidavits are on file; all holds released, if any; interior and exterior is complete including driveway, sidewalks, sodded yards (where required) and trees planted. Final inspection must be made on swimming pools (including fences and alarms) before a Certificate of Occupancy is issued.

The City of Snellville
Department of Planning & Development
2342 Oak Road, 2nd Floor
Snellville, GA 30078
www.snellville.org

(770) 985-3513
(770) 985-3514
FAX (770) 985-3551

- Subcontractor Affidavits for Plumbing, Electrical, and HVAC must be received in our office prior to the scheduling of the appropriate inspections.
- Please call the Department of Planning & Development (770-985-3513) between the hours of 7:00 AM to 5:00 PM to schedule your building inspections. Inspections are performed Monday through Wednesday and Friday.
- If you would like to discuss any inspection results or have general construction questions, the City's Building Inspector maintains office hours from 8:30 AM to 9:30 AM on Mondays and Wednesdays.
- Requested inspections that are not ready for inspection when the Building Inspector arrives or which do not successfully pass requiring a re-inspection are subject to re-inspect fees, which must be paid-in-full prior to issuance of the Certificate of Occupancy. The following fee structure applies to failed inspections:

1 st re-inspection fee	\$ 50	4 th re-inspection fee	\$125
2 nd re-inspection fee	\$ 75	5 th re-inspection fee	\$150
3 rd re-inspection fee	\$100	subsequent re-inspections	\$150

Example: if a site has 3 re-inspections, the re-inspect fees are calculated as follows;
\$50 (1st re-inspect) + \$75 (2nd re-inspect) + \$100 (3rd re-inspect) = \$225 Total Fees

- Third party inspections must be pre-approved in writing by the Department of Planning & Development in advance of the requested inspection. The Builder/Permit Holder shall be responsible for all expenses associated with any third party inspection. Copies of all third party inspection documentation shall be provided to the City's Building Inspector for review and permanent record keeping.
- Upon successfully passing the building Final for C.O. inspection, and any other additional requirements, a Certificate of Occupancy shall be issued, provided all re-inspect fees have been paid-in-full.

INSPECTION REQUEST TELEPHONE NUMBER

(770) 985-3513

Please call before 5:00 PM

SUPPLEMENT TO THE SNELLVILLE BUILDING PERMIT APPLICATION

ALL BUILDERS SHALL COMPLY WITH THE FOLLOWING SNELLVILLE ORDINANCES AND REGULATIONS. FAILURE TO DO SO COULD DELAY FINAL INSPECTIONS OF A STRUCTURE AND/OR CAUSE OTHER PENALTIES.

All building sites are subject to Chapter 26, Article VII, "Soil Erosion and Sedimentation Control", of the Snellville Code of Ordinances (copy available upon request).

This ordinance in part, controls the movement of soil by whatever means on any type of development in the City, including, but not limited to, commercial and residential, including single building sites.

Silt barriers shall be placed in the prescribed method at whatever locations required by the City Engineer or the City Inspector. They shall be maintained in a functioning manner at all times.

All other parts of the Soil Erosion and Sediment Control Ordinance shall be observed where applicable.

THIS ORDINANCE WILL BE ENFORCED. It carries a prescribed fine and the violator must pay for any damages to adjacent property caused by any violation such as allowing silt to flow off the property and block a drainage pipe. An accumulation of silt on an adjacent property is considered damage.

Drainage swales shall be constructed where so directed by the City Engineer or City Inspector. Open ditches shall have side slopes constructed and grassed with a maximum slope of 2:1, or pipes shall be placed if deemed necessary by the City Engineer or City Inspector due to difference of elevation in the yard and bottom of flow line or for the reason of protecting the property owners by removal of a hazard.

All commercial building sites are also subject to Chapter 26 "Environment" of the Snellville Code of Ordinances. This ordinance regulates grading, erosion control, sedimentation control, vegetation and drainage. It is a requirement of this chapter that a hydrological study shall be performed for every commercial construction site. Drainage is taken seriously and these requirements will be enforced. Four copies of the site plan and one copy of the hydrological study are to be submitted to the Planning & Development Department for review and approval. This approval is required prior to the issuance of a Site Development Permit.

A detention pond "as-built" drawing showing pond volume by contours and outlet structure details is required prior to issuance of a Certificate of Occupancy.

The City of Snellville has ordinances and regulations controlling work done within the street right-of-way. Therefore, the developer or builder should consult with the City Engineer before constructing any driveways or drainage facilities. Any of the facilities that are not constructed to city requirements will have to be brought into compliance before final building inspections are made. Detailed drawings are available in the Engineer's office.

When final grading is done on a lot or at the time of landscaping, the area within the street right-of-way shall be provided with whatever cut or fill that might be necessary to form a typical street cross section with a shoulder from the curb to the front property line. The City Engineer shall determine any allowable deviation from this requirement.

Snellville ordinance prohibits the movement of all steel tracked vehicles on paved streets. This includes tractors doing landscaping. The operator of any vehicle violating this ordinance by damaging city property (pavement, curbing, catch basins, headwalls, culverts, etc.) shall receive a citation to appear in Snellville City Court.

I have read and acquainted myself with the requirements of this supplement to the Snellville Building Permit Application and have received a copy for my future reference.

INDEMNITY AGREEMENT

WHEREAS, _____ (the "Owner") is the owner of the Property (the "Property") located in the City of Snellville on _____ and desires to make certain improvements to the Property and to obtain a building permit from the City of Snellville for such improvements; and

WHEREAS, the improvements which the owner wishes to make to the Property may alter drainage in, out, or across the Property,

WHEREAS, the City of Snellville requires the indemnification set forth below as a condition precedent to the Owner's making the improvements:

NOW, THEREFORE, in order to induce the City of Snellville to issue a building permit to the Owner, the Owner agrees for itself, himself, or herself, its, his, or her officers, agents, assigns, and successors in title to the Property to indemnify and hold harmless the City of Snellville, its officers, agents and employees from any damages or claims for damages arising out of (a) the construction, maintenance or use of the improvements, or (b) the run-off or discharge of water from the Property. This is a covenant running with the Property.

IN WITNESS WHEREOF, the Owner has caused this Indemnity Agreement to be duly executed under seal this _____ day of _____, 20____.

EROSION CONTROL

My signature hereon signifies that I am the person responsible for compliance with the Soil Erosion & Sediment Control Ordinance. I acknowledge that City inspection staff may: refuse to make inspections, issue Stop Work Orders, and issue summons's to appear in Recorder's Court for violations of erosion control requirements; and that I must use Best Management Practices (BMP's) to control soil erosion on my job site which includes at a minimum all of the following:

- Installation and regular maintenance of silt barriers (i.e silt fences, hay bales, etc.) in those areas where water exits the job site;
- Installation and regular maintenance of a stone driveway entrance/exit pad to minimize the tracking of mud into the street;
- Removal of mud from the street or adjacent property immediately following any such occurrence;
- Maintenance and removal of mud from detention ponds and sediment basins
- Conduct no land disturbing activities within 25 feet of the banks of streams, lakes, wetlands, etc. (i.e. "state waters")
- Institute erosion control measures and practices as indicated on the approved Soil Erosion and Sediment Control Plan. Provide temporary vegetation and/or mulch in exposed critical disturbed areas.
- Submittals of form EC-1 on a weekly basis every Friday before 5:00 p.m.

SOLID WASTE MANAGEMENT

1. **Construction and Demolition (C&D) Waste Disposal Information:** (Please complete both paragraphs "a" and "b" below)

Note: on-site burial/disposal of Construction and Demolition (C&D) Waste is prohibited by Georgia law and the Gwinnett County Solid Waste Disposal Services Ordinance. Construction and Demolition (C&D) Waste means building materials from construction and demolition operations which include, but are not limited to: asbestos-containing waste, wood, bricks, metal, concrete, wall board, paper, and cardboard.

a. State how often C&D Waste will be collected and hauled (note: hauler have a Permit by Rule from Georgia EPD):

b. State the type of container or enclosure to be used to temporarily store waste before hauling (e.g. dumpsters provided every other lot, etc.):

2. **Inert Waste Disposal Information:** (Please complete either paragraph "a" or "b" below)

Note: on site disposal of Inert Waste is authorized by Georgia law and the Gwinnett County Solid Waste Disposal Services Ordinance ONLY if Georgia EPD Permit by Rule regulations are followed. Inert Waste is limited to: earth, earth-like products, concrete, cured asphalt, rock, bricks, yard trimmings, stumps, limbs and leaves.

a. Off-Site Disposal (including residue from burning):

- (1) State if Inert Waste is to be burned (approval from Gwinnett Marshal's Office is required): _____ Yes _____ No; and,
- (2) State how often Inert Waste and/or burning residue will be collected and hauled (note: hauler must have a Permit by Rule from Georgia EPD):

b. On-Site Disposal (including residue from burning):

- (1) Please attach a copy of completed Georgia EPD Notification of Permit by Rule Operations Form; and,
- (2) Please attach a copy of "sketch plan" indicating the proposed location and boundaries of the disposal site; and,
- (3) Please state if inert waste is to be burned (approval from Gwinnett Fire Marshal's Office is required) and applied as a soil amendment: _____ Yes _____ No;

My signature hereon signifies acknowledgement of all of the following

- On-site disposal of Construction and Demolition (C&D) Waste is prohibited;
- City inspection staff may: refuse to make inspections, issue Stop Work Orders, issue summons's to Recorder's Court for violations of Stop Work Orders, and refuse to approve Final Plats and Certificates of Occupancy or Completion for failure to comply with solid waste disposal laws;
- If on-site disposal of Inert Waste is proposed, proof shall be provided that property/deed records have been revised or recorded indicating the boundaries of the disposal site prior to approval of a Final Plat, Certificate of Occupancy or Completion.
- **All on site sanitation services (Open top dumpsters and front load containers) must be secured through the City of Snellville Sanitation Department. A citation (fine not in excess of \$1000.00) will be issued in the event service is not acquired through the City of Snellville.**
