

TACTICAL URBANISM INSTALLATION STREET ELIGIBILITY

CITY OF SNELLVILLE | Department of Planning & Development
2342 Oak Road, 2nd Floor | Snellville, GA 30078
770-985-3514 | snellville.org/planning-development

INTRODUCTION

Part of the City of Snellville Tactical Urbanism Program is the opportunity to create small improvements and changes to the streets within the city. The purpose of this document is to let you know if the street or intersection you are wanting to use is eligible for a tactical urbanism installation.

On the following pages is a list of streets, roads and highways within Snellville city limits, in alphabetical order. The final column gives one of three responses for if the street is eligible for tactical urbanism: **YES**, **NO**, and **MAYBE**.

There is also a color-coded map showing the locations of eligible and ineligible streets. Both are available online at the City's [Tactical Urbanism page](#).

NO

First, what you cannot do. **Any street that is a State or Federal highway is off the table.** In Snellville, this means Main Street, Athens Highway and Scenic Highway, among others.

Likewise, any road classified as an "arterial" is not eligible. This includes Ronald Reagan Parkway, Lenora Church Road and Rosebud Road, to name a few.

The amount of effort it would require to navigate state and federal DOT regulations for these roadways is beyond the scope of this program. See the list on the following pages for a full breakdown of what roads are not eligible.

Though the road itself cannot be used, you may still apply for a project on the sidewalk or on the private property that is adjacent to these roadways.

MAYBE

These are roads that are **owned and maintained by the Gwinnett County Department of Transportation (GCDOT)**, rather than the City of Snellville. The fact that they are owned by the county does not mean they are ineligible for a tactical urbanism project, but that the approval process will likely be lengthened as permission will need to be given by GCDOT to use their right-of-way.

Applicants seeking to use a county-maintained road are encouraged to **thoroughly explore** the need for their project and how it would benefit the community. Coming prepared with site plans, examples and metrics for how to measure the impact of their project is highly encouraged.

YES

These are roads owned and maintained by the City of Snellville Public Works Department. Most neighborhood streets are maintained by the city, as well as several collectors feeding into the larger highways and arterials. These streets will likely have the simplest (and shortest) approval process.
